

Rooted in agriculture.
Leading with expertise.

Who we are:

AGnosis is purpose-built to support high-stakes decisions across the agriculture value chain.

Our model brings together experienced advisors, managers, and domain experts spanning crop protection and seed, animal agriculture and equipment, biofuels, and investment diligence delivering **contextual intelligence to every engagement**.

Experience-led on every engagement

Deep agriculture knowledge across the value chain

Management consulting rigor delivered efficiently

Expert-enabled, AI-accelerated insight

Breadth of experience:

- Crop Protection & Crop Enhancement
- Biotechnology & Seed
- Animal Health & Nutrition
- Ag Retail & Distribution
- Ag Equipment & Precision Ag
- Regenerative Ag & Sustainability
- Biofuels
- Investment Diligence
- Risk Management
- Investment Assessment

The numbers behind our experience:

500+ strategy engagements

100+ global organizations advised

20+ ag value chain segments served

How we work:

Every AGnosis engagement is led by experienced managers and supported by cross-functional teams of consultants and domain experts – **all deeply rooted in agriculture.**

OUR APPROACH IS GROUNDED IN THREE PILLARS:

Contextual Intelligence:

We draw from decades of sector-specific experience, competitive understanding, and strategic stakeholder awareness.

Custom Built Process:

We design focused, right-sized approaches aligned to the complexity of each decision.

Strategic Clarity:

We simplify complexity, align organizations, and support decision-making with grounded confidence.

We would be proud
to support you and
your organization.
